

Dr. Martin Curley

Dr. Martin Curley is the recently-appointed Director of Intel Labs Europe whose mission is to advance Intel research and innovation in Europe while partnering to enable European competitiveness. Martin is also Senior Principal Engineer and Global Director of IT Innovation at Intel Corporation managing a network of IT Innovation centres catalyzing worldwide IT Innovation. Previously Martin has held a number of senior IT Management positions for Intel and held management and research positions at General Electric and Philips. Martin has a degree in Electronic Engineering, a Masters in Business Studies from University College Dublin, Ireland, a PhD in Information Systems from the National University of Ireland, Maynooth and has been a visiting scholar at MIT.

Martin is author of “Managing Information Technology for Business Value” published by Intel Press, January 04, co-author of “Managing IT Innovation for Business Value” published in 2007 by Intel Press and co-author of “Knowledge Driven Entrepreneurship” to be published by Springer in Winter 2009.

Martin is Professor of Technology and Business Innovation at the National University of Ireland, Maynooth and co-Director of the Innovation Value Institute, helping lead a unique industry-academic open innovation consortium to advance IT management and innovation. Martin is a fellow of the Institution of Engineers of Ireland and the British Computer Society. He is a frequent international keynote speaker on Innovation and Technology.
